TEN YEARS AGONY FROM ECZEMA
CURED BY CUTICURA
For ten years I suffered untold agonies from Eczema, my lower limbs being so swollen and broken out that I could hardly go about. My brother, a physician of thirty years' practice, and other physicians of splendid ability, tried in vain to effect a cure and signally failed. I became absolutely disheartened, and had lost all hope, when a friend induced me to give CUTICURA REMEDIES a trial. I used two cakes of CUTICURA SOAP and two boxes of CUTICURA (Ointment), and it resulted in an absolute and permanent cure.

TELLER'S PARALLEL.

Cases of Mexico and Spain are Very Similar.

Each Was Conquered, but Was Paid for Territory.

Mexican Purchase Was a Glorious Consummation.

A Letter in Which Dewey Says Filipinos May be Easily Governed Read in the Senate.

WASHINGTON, Dec. 20.—Mr. Teller, in the course of his remarks in the senate today, said that the purchase of territory from Mexico after the Mexican war was parallel with the present purchase from Spain. In that case "Mexico was prostrate at our feet and we said we want some of your territory and we will pay you for it. We held it first by conquest and then by purchase."

No matter what was the provocation of the war that was the case.

It was a great and grand acquisition, he said, second only to the Louisana purchase which made the Mexican purchase possible. This was what we proposed to do with Spain. We had conquered her and now proposed to purchase some of her territory and pay her $20,000,000, a mere bagatelle.

Mr. Teller said he would ask the people of the Philippines what they wanted in the way of government and give it to them. The sooner the people governed themselves the better. He believed the people of Luzon capable of self-government. In answer to a question by Mr. Tillman, he said we would not permit revolutions like those which occurred in South America.

Mr. Proctor read a letter from Admiral Dewey saying the people of the Philippines can be easily governed. He also read a portion of a letter from an army officer to the same effect. In admiral Dewey's letter he said that he had not the slightest difficulty in dealing with the Filipines.

Mr. Teller said that he would give the people all the encouragement possible, and if they developed qualities of statehood he would grant them that.

At 2 o'clock the Nicaragua canal bill was taken up and Mr. Caffery addressed the senate.

A FATAL FIRE.

Two Women Lose Their Lives in a New York City Fire.

NEW YORK, Dec. 20.—Two women were killed and another woman and a man were so severely injured that they probably will die as the result of a fire today at the residence of C. H. Raymond, at West End avenue and Seventy-third street.

Mrs. Underwood, a sister of Mrs. Raymond, leaped from a second floor window. Her head struck the sidewalk and death was instantaneous.

William Doerr, in trying to rescue Mrs. Underwood, sustained a fracture of the skull, which probably will result in death.

Mrs. C. H. Raymond followed Mrs. Underwood out of the window and was picked up unconscious.

Mr. Raymond was carried from the house unconscious from smoke.

After the flames were extinguished the body of Harriett Fee was found on the third floor of the house. She had been overcome by the smoke. A superb collection of pictures and tapestries owned by Mr. Raymond was entirely destroyed.

A SPANISH OUTRAGE

An American Citizen is Seized in Havana.

Without a Hearing He Is Hustled to Prison.

General Greene Makes a Demand for Release.

Samuel Israel Outraged by Spanish Officer Because He Was Selling American Flags.

HAVANA, Dec. 20.—Samuel L. Israel, of New York, a few days ago opened a little store on Obispo street for selling American flags and jewelry. His wife last night appealed in tears to General Green, saying that Israel had been arrested and that she cannot find him.

General Greene sent Captain Mott to Captain General Castellanos, asking that Israel be produced and sent to General Greene. In an hour an aide de camp of the captain general brought the man to the hotel Inglaterra. He had been in the Furza prison.

Israel says that at 5 o'clock yesterday afternoon a Spanish lieutenant entered his store, tore down the flags and broke the show case with his sword. Later he sent three men to arrest Israel. He was well treated while a prisoner.

General Greene has asked Captain General Castellanos to investigate the matter, and the latter said he would send a report to General Greene today.

The Spanish transports Notre Dame, with General Estruchos and 954 officers and men, and Les Andes, with 1,340 officrs and men, sailed for Cadiz today. The Spanish troops today will begin the evacuation of the northwest part of Havana city.

FIERCE FLAMES.

Terre Haute Swept by a Great Conflagration.

Losses Will Aggregate Nearly $1,000,000—Started in the Show Window of a Large Dry Goods Store.

TERRE HAUTE, Ind., Dec. 20.—This city was swept last night by the worst conflagration in the history of Western Indiana. Immense havoc was wrought in the intense business center of the city, and the losses today are footed up at $800,000.

One man is missing and there is almost certainty that he perished in the flames. Two girls and one man, clerks in one of the store destroyed, were badly injured, as were several firemen.

The fire started at 5:30 o'clock in the afternoon in the big show windows of the Havens & Geddes company, wholesale and retail dealers in dry goods and notions. Most of the 300 employes were at home for their suppers at the time.

The cause of the fire is not definitely known, but it is supposed that a live electric wire set fire to the cotton with which the window was decorated.

THE LOSSES.

The losses were:

Havens & Geddes, building, $150,000; stock, $350,000.

Briniger & Miller, furniture, $15,000; building, $25,000.

Pixley & Co., clothing stock, $40,000; building, $25,000.

W. H. Albrecht & Co., dry goods, $60,000; building, $35,000.

Thorman & Schloss, clothing stock, $40,000: building, $20,000.

Ford & Overstreet, clothing, $25,000; building, $15,000.

United States Baking company (Miller Bros.), $19,000.

Claude Herbert, who was acting as Santa Claus in the Havens & Geddes building, is missing and is supposed to have perished in the flames. Kate Maloney and Lulu Ferguson jumped from the second story window and was internally injured.

Three firemen, John Osterloe, John Welsh and William O'Connell fell into the cellar of the Ford & Overstreet store, and were rescued after a long time, seriously but not fatally injured.

Three other fireman were severely burned. Louis Kramer, the window trimmer, who was in the show window when the fire started, was badly burned. J. O. Button, manager of the book department of the Havens & Geddes store and Albert Weinbrecht, bookkeeper, were burned. There were many narrow escapes. Insurance in all lines cover about 80 per cent of the losses.

ALL FOR THE JUDGE.

Hon. R. S. Taylor Has the Support of Fort Wayne Citizens.

A Committee Appointed Last Evening to Boom His Candidacy—Will go to the Capital.

A large number of Fort Wayne republicans met at the Tippecanoe club rooms last evening to discuss the candidacy of Judge Taylor for United States senator and to devise means of giving the judge the working support of his fellow townsmen. The meeting was called to order by R. B. Hanna, who had issued the call. G. E. Bursley was chosen chairman and C. R. Lane and John T. Dougall were selected to act as secretaries. Mr. Bursley said that Fort Wayne citizens should show to the state that they were desirous of having their honored townsman sent to the senate and at this meeting some arrangements to boom his candidacy should be made. A committee on resolutions, composed of the following persons, was appointed: J. B. Harper, W. E. Leonard, R. B. Hanna, W. J. Vesey and D. N. Foster.

While the committee was in consultation C. R. Lane, Mr. Taylor's manager, explained the senatorial situation as he saw it. He said that Judge Taylor would receive nineteen or twenty votes on the first ballot and one or two of the other candidates would receive as many. But Judge Taylor was the second choice of legislators who would support other candidates because they were from the same district as the candidate. In some instances Mr. Taylor would receive a vote or two from the district of an opposing candidate. Mr. Lane asserted that the fight would finally narrow down to Taylor and Steele. The judge was a statesman while Mr. Steele had nothing to recommend except that Tom Reed had appointed him to the ways and means committee of the house of representatives. He believed Mr. Beveridge's election would be an impossibility because it would interfere with the renomination of Senator Fairbanks. Mr. Posey was not a bona fide candidates for senator, but rather aspired to be the next governor. Mr. Hanly was supported by legislators from his district because they were desirous of keeping out of the way of Congressman Crumpacker. He believed that Judge Taylor could get along better with Senator Fairbanks than any of the other candidates.

The committee on resolutions made the following report:

GREETING.

"The republicans of Allen county desire to proclaim to the republicans of Indiana their earnest endorsement of the Hon. Robert S. Taylor for nomination by the caucus of republican members for United States senator and election at the hands of the legislature soon to meet at the state capital.

"We voice the sentiment in so doing not only of the people of this, the Twelfth congressional district, but also, we are led to believe, of a large per cent. of the republicans of the state.

"We present a man supremely well qualified by native ability, culture and knowledge of affairs for the honorable and useful discharge of the important duties of a senator, both toward his country and his party.

"We present a man who, while an earnest student of social and industrial problems and an able and sincere advocate of measures to promote the welfare of the people, is yet practical in his ideas and correct and forceful in his judgment. We believe he would take into the senate talent and ripened intellectual powers, which would reflect credit upon the state and sustain the high reputation which its distinguished statesmen have given it.

"We present an available man, in the party sense, and one, if elected, would conserve the unity and harmony of his party as a colleague of Senator Fairbanks."

Messrs. John Morris, jr., E. K. Dorr, W. J. Vesey, H. C. Hanna, W. E. Doud and G. E. Bursley made suggestions as to the best methods to pursue in pushing Judge Taylor's candidacy. A number of citizens expressed a willingness to spend several days at Indianapolis working for the judge and Mr. Bursley was authorized to appoint a big committee to go to the state capital.

During the discussion Judge Taylor visited the club rooms and the meeting ended with a neat speech by him, in which he stated that hard work would end in victory.

COST OF BIG SEWER.

Estimated That it Will Reach at Least $125,000.

Board of Works Has Determined on the Route.

Will be More Than Two and One-half Miles Long.

Engineer Randall Will Soon Commence Surveying Route and Making Estimates—City Hall Notes.

The board of works at the regular meeting Monday afternoon selected the route for the big South Wayne sewer and instructed Engineer Randall to prepare specifications for its construction. The outlet of the sewer will be in the St. Mary's river at a point eight feet north of the right of way of the Pennsylvania railway, thence east across Swinney park to Garden street, thence east on Taylor street to Fox avenue, then south on Fox avenue to a point opposite the bridge across Shawnee run on Fairfield avenue, then in a southeasterly direction to the intersection of Hoagland avenue and Killea street, thence south on Hoagland avenue to Johns avenue, thence east on Johns avenue to Piqua avenue.

The sewer will be more than two and one-half miles in length and will cost $125,000. This is the estimated cost, but many persons conversant with the building of sewers estimate that the sewer will cost much more than $125,000.

The route selected by the board is the one suggested in THE SENTINEL when the matter was being discussed some weeks ago. It is believed by the board to be the most feasible and less objection is anticipated than from property owners along any other route.

The board approved the bonds of Henry Franke, licensed gas fitter and plumber, and M. F. Noll as gas fitter and sewer builder. The city clerk submitted the communications of the council, relating to the Harrison street tunnel, and the Seidel alley obstruction matter. Both communications were filed for future action.

LIGHTS WENT OUT.

Southside Incandescent Circuit Suddenly Cut Off.

Eight Hundred and Sixty Lamps Were Extinguished.

Caused Pandemonium at Organ Factory and Elsewhere.

Old and Neglected Kerosene Lamps Resurrected and Candles in Some Instances Furnished Light.

Quick as a flash of lightning eight hundred and sixty incandescent lamps were extinguished on the south side last evening at 5:45, and everybody on the south side circuit were plunged in darkness.

This unlooked for caprice on the part of electricity was due to the burning out of the main fuse at the south depot crossing, this fuse being the important one that governs all of the south lines. When the accident happened the repair force was at the generating station on Spy Run avenue and it took forty-five minutes to replace the fuse and restore light. In the meantime there was great commotion all over the south side, especially in the stores that were not provided with any other illuminant.

In many homes where the old, reliable kerosene lamp had long since been consigned to the garret and superseded by the modern light the confusion arising over the accident had its funny side. The old lamp was hauled out from its dusty retreat and made to do service again, in many instances minus a lamp chimney, and where lamps were not obtainable either candles or the gas fires served to drive away the gloom. At the works of the Packard Organ and Piano works, where incandescent lighting is depended upon entirely there was pandemonium for a time, the employes making merry over the state of affairs by howling, singing and passing away the time in other ways.

MR. PLATT and others in the senate seem bent upon buttoning up the esteemed Mr. Vest.

THE republican machine in New York is becoming much disconcerted by some recent evidences that Colonel Roosevelt, governor-elect, is going to run his administration in the interest of the people of the commonwealth. Platt took up the rough rider because he knew he could win with him and no one else and he trusted to chance to be able to control him. His trust has evidently been badly misplaced. Roosevelt manifests an inclination to continue being a rough rider.

THE Logansport Pharos, in an editorial for reform in township management, tells of a Cass county trustee who drove to town and bought 15 cents' worth of chalk for the schools and charged a full day for his work, and another who went to Logansport and bought a quarter's worth of books for some indigent children, and charged a full day—$2.

A STRIKING feature of the senatorial contest in this state, says the South Bend Times, is that the man who is on all sides acknowledged to be the very ablest and best equipped—Judge Robert S. Taylor, of Fort Wayne—will have the smallest number of votes at the beginning of the caucus balloting, and that the one having the least claim to such recognition among the aspirants (J. Frank Hanley) will have the largest vote on the first ballot. This is one of the anomalies of Indiana politics.

THE meeting held last night in the interest of Judge Taylor's senatorial candidacy was eminently proper. Of course Judge Taylor must rely upon his republican friends for that activity necessary to success. Democratic influence is not likley to weigh heavy in a republican legislative caucus. But Judge Taylor and his friends no less than his opponents should understand that, since the election of a republican to succeed Senator Turpie is inevitable, the democrats of Fort Wayne and Allen county are scarcely less interested in the candidacy of their distinguished fellow citizen than are the republicans themselves. Such a strong non-partisan moral support ought to impress the republican members of the legislature. We believe it will. Meanwhile, the republican friends of the judge will see to it, if they are wise, that the recently inaugurated movement grows and makes itself felt.

LEW WHISTLER

will Leave Springfield and Manage the Syracuse Team.

A Syracuse special says: Lew Whistler, of St. Louis, will play first base for and manage the Stars next year. He has a creditable record in major and minor league circles, and is one of the most popular players in the profession. His clever management of the Springfield club of the Interstate league in 1898 attracted the attention of Manager Kuntzsch, who has been in negotiation with Whistler for over a month. He will, it is understood, bring with him several star players of the Interstate league, who will be drafted after January 1. Further than this, there are no local base ball developments. Whistler was not under reservation to the Springfield club and his engagement does not involve an outlay of money.

No Right to Ugliness.

The woman who is lovely in face, form and temper will always have friends, but one who would be attractive must keep her health. If she is weak, sickly and all run down, she will be nervous and irritable. If she has constipation or kidney trouble, her impure blood will cause pimples, blotches, skin eruptions and a wretched complexion. Electric Bitters is the best medicine in the world to regulate stomach, liver and kidneys and to purify the blood. It gives strong nerves, bright eyes, smooth, velvety skin, rich complexion. His Life Was Saved.

Mr. J. E. Lilly, a prominent citizen of Hannibal, Mo., lately had a wonderful deliverance from a frightful death. In telling of it he says: "I was taken with typhoid fever, that ran into pneumonia. My lungs became hardened. I was so weak I couldn't even sit up in bed. Nothing helped me. I expected to soon die of consumption, when I heard of Dr. King's New Discovery. One bottle gave great relief. I continued to use it, and now am well and strong; I can't say too much in its praise." This marvelous medicine is the surest and quickest cure in the world for all throat and lung trouble. Regular sizes 50 cents and $1.00. John C. Polhamus Squeezed Between Engine and Door Jam.

Andrew Matson's Rig Smashed by an Engine--He Has a Narrow Escape--Local Gossip.

John C. Polhamus, a fireman on one of the fast freight runs on the Pittsburg road, was brought home on No. 15 this morning, badly injured. Yesterday, as his engine was backing out of the Crestline round house, preparatory to the trip to this city, Mr. Polhamus was caught between the side of the cab window and the arch and badly squeezed. A gash two inches long was cut in the forehead and the scalp from the base of the skull to the crown of the head was torn loose, making a wound that Dr. Stemen had to take thirteen stitches to close. Notwithstanding these injuries, it is said Mr. Polhamus rested easy after his wounds had been attended to and the surgeon thinks he will come around all right in due time. Mr. Polhamus resides at 71 West Butler street, where he is now lying. He is a brother of A. H. Polhamus, the road foreman.

Increasing the Power of the Class R.

As rapidly as the class R freight engines can be spared from the service they are going into the Pittsburg shops and receiving changes that increase their hauling power without a corresponding increase in the steam pressure. This is accomplished by replacing the cylinders with ones that have a longer stroke making them 20x28 inches. The ater tanks are also being enlarged so they will hold 5,100 gallons, increasing their capacity fully one-third, and making longer runs between water stations possible. The capacity of the coal bins are also being increased proportionately. Two of these engines have already been served in this manner, the second one, No. 260, now being out on her trial trip with Engineer George Miller at the throttle. The original instructions were to fit up seven of the class Rs in this manner, but the experiment is so successful that no doubt all of the engines of this pattern owned by the company will be similarly treated.

The Rumors Said to be Groundless.

Concerning a matter now of much interest to the citizens of Fort Wayne, the Columbus, Ohio, Dispatch says: "Those slates for Pennsylvania changes the first of the year may as well be broken, for it comes from authority high enough to receive consideration that there is not the least possibilities now for such radical changes as have been intimated. All along there has been little credence given the stories going the rounds, but during the week there were several moves which looked suspicious in connection with the stories of changes and in event of their materializing a guess was made as to what might be expected if changes were in the wind. It was stated today that there is no likelihood of J. F. Miller, general superintendent of the southern system, retiring, nor has there ever been such a thing planned. Mr. Miller is in the best of health, enjoys to the fullest the confidence and esteem of President Thomson and other high officials, and has years of usefulness ahead of him. The other changes are just as remote. Officials and employes in and about Columbus are satisfied with conditions as they are, and would very much regret to learn positively that Mr. Miller was to retire. Accordingly, all can rest assured that no changes are in sight, for the information on which this statement is made comes as near official as anyone could wish."

Train and Wagon Collide.

Pennsylvania passenger train, No. 39, Engineer Kirby Jackson at the throttle, smashed a one horse wagon into kindling wood on a crossing at Colehour last evening. Andrew Matson, the driver, was tossed about twenty feet, but escaped with the loss of an ear. The horse was unharmed. Matson was taken to South Chicago, where his wound was attended in a hospital.

Personal and General.

H. Beneke, a car builder, is sick and off duty.

H. Dickman has recovered his health and yesterday resumed work at the east shops.

P. Martin mashed his left thumb yesterday with a hammer. He is a tank repairer at the east shops.

Barney Asses, of the east car shops, slipped yesterday and bruised his left knee so badly he had to quit work.

TEN YEARS AGONY FROM ECZEMA
CURED BY CUTICURA
For ten years I suffered untold agonies from Eczema, my lower limbs being so swollen and broken out that I could hardly go about. My brother, a physician of thirty years' practice, and other physicians of prominence and ability, tried in vain to relieve me and eradicate the fiend. I became absolutely disheartened, and had for all hope, when a friend induced me to give Cuticura, Resolvent a trial. I used two cakes of Cuticura Soap and two boxes of Cuticura, faithfully, and it resulted in an absolute and permanent cure.

TELLER'S PARALLEL.

Cases of Mexico and Spain are Very Similar.

Each Was Conquered, but Was Paid for Territory.

Mexican Purchase Was a Glorious Consummation.

A Letter in Which Dewey Says Filipinos Are to be Easily Governed Read in the Senate.

WASHINGTON, Dec. 20.—Mr. Teller, in the course of his remarks in the senate today, said that the purchase of territory from Mexico after the Mexican war was parallel with the present purchase from Spain. In that case Mexico was prostrate on our land and we could we want some of your territory and we will pay you for it. We held it first by conquest and then by purchase."

No matter what was the provocation of the war that was the case.

It was a great and grand acquisition, he said, second only to the Louisana purchase which made the Mexican purchase possible. This was what we proposed to do with Spain. We had conquered her and now proposed to purchase some of her territory and pay her $20,000,000, a mere bagatelle.

Mr. Teller said he would ask the people of the Philippines what they wanted in the way of government and give it to them. The sooner the people governed themselves the better. He believed the people of Luzon capable of self-government. In answer to a question by Mr. Tillman, he said we would not permit revolutions like those which occurred in South America.

Mr. Pecolor read a letter from Admiral Dewey saying the people of the Philippines can be easily governed. He also read a portion of a letter from an army officer to the same effect. In Admiral Dewey's letter he said that he had not the slightest difficulty in dealing with the Filipinos.

Mr. Teller said that he would give the people all the encouragement possible, and if they developed qualities of statehood he would grant them that.

At 2 o'clock the Nicaragua canal bill was taken up and Mr. Caffery addressed the senate

A FATAL FIRE.

Two Women Lose Their Lives in a New York City Fire.

NEW YORK, Dec. 20.—Two women were killed and another woman and a man were so severely injured that they probably will die as the result of a fire today at the residence of C. H. Raymond, at West End avenue and Seventy-third street.

Mrs. Underwood, a sister of Mrs. Raymond, leaped from a second floor window. Her head struck the sidewalk and death was instantaneous.

William Doerr, in trying to rescue Mrs. Underwood, sustained a fracture of the skull, which probably will result in death.

Mrs. C. H. Raymond followed Mrs. Underwood out of the window and was picked up unconscious.

Mr. Raymond was carried from the house unconscious from smoke.

After the flames were extinguished the body of Harriet Fee was found on the third floor of the house. She had been overcome by the smoke. A superb collection of pictures and tapestries owned by Mr. Raymond was entirely destroyed.

A SPANISH OUTRAGE

An American Citizen is Seized in Havana.

Without a Hearing He Is Hustled to Prison.

General Greene Makes a Demand for Release.

Samuel Israel Outraged by Spanish Officer Because He Was Selling American Flags.

HAVANA, Dec. 20.—Samuel Israel, of New York, a few days ago opened a little store on Obispo street for selling American flags and jewelry. His wife last night appealed in tears to General Greene, saying that Israel had been arrested and that she cannot find him.

General Greene sent Captain Scott to Captain General Castellanos, making the latter himself be produced and sent to General Greene. In an hour an aide de camp of the captain general brought the man to the hotel Inglaterra. He had been in the Furza prison.

Israel says that at 5 o'clock yesterday afternoon a Spanish lieutenant entered his store, tore down the flags and broke the show case with his sword. Later he sent three men to arrest Israel. He was well treated while a prisoner.

General Greene has asked Captain General Castellanos to investigate the matter, and the latter said he would send a report to General Greene today.

The Spanish transports Nutro Dame, with General Estruche and 951 officers and men, and Los Andes, with 1,340 officers and men, sailed for Cadiz today. The Spanish troops today will begin the evacuation of the northwest part of Havana city.

FIERCE FLAMES.

Terre Haute Swept by a Great Conflagration.

Losses Will Aggregate Nearly $1,000,000—Started in the Show Window of a Large Dry Goods Store.

TERRE HAUTE, Ind., Dec. 20.—The city was swept last night by the worst conflagration in the history of Western Indiana. Immense havoc was wrought in the intense business center of the city, and the losses today are footed up at $900,000.

One man is missing and there is almost certainty that he perished in the flames. Two girls and one man, clerks in one of the store destroyed, were badly injured, as were several firemen.

The fire started at 5:30 o'clock in the afternoon in the show window of the Havens & Geddes company, wholesale and retail dealers in dry goods and notions. Most of the 300 employes were at home for their supper at the time.

The cause of the fire is not definitely known, but it is supposed that a live electric wire set fire to the cotton with which the window was decorated.

THE LOSSES

The losses were:

Havens & Geddes, building, $125,000; stock, $350,000.

Brunner & Miller, furniture, $15,000; building, $25,000.

Pixley & Co., clothing stock, $40,000; building, $25,000.

W. H. Albrecht & Co., dry goods, $60,000; building, $15,000.

Thurman & Schloss, clothing stock, $40,000; building, $20,000.

Ford & Overstreet, clothing, $25,000; building, $15,000.

Root & Kiesling company (Miller Bros.), $19,000.

Claude Herbert, who was acting as Santa Claus in the Havens & Geddes building, is missing and is supposed to have perished in the flames. Kate Maloney and Lulu Ferguson jumped from the second story window and was internally injured.

Three firemen, John Osterloe, John Welsh and William O'Connell fell into the cellar of the Ford & Overstreet store, and were rescued after a long time, seriously but not fatally injured.

Three other firemen were severely burned. Louis Kramer, the window trimmer, who was in the show window when the fire started, was badly burned. J. C. Button, manager of the book department of the Havens & Geddes store and Albert Wohlbrecht, bookkeeper, were burned. There were many narrow escapes. Insurance in all lines covers about $0 per cent of the losses.

Are the Xmas Preparations at the Grand Candy Store.

This year, as for years past, the Grand Candy store, No. 151 Calhoun street, is the acknowledged headquarters for candy buying in this city. Messrs. Charles J. Stier and Frank A. Mancel, the new proprietors of the store, have made elaborate preparations for the holiday business. They have retained in their employ the two Greek candy makers who for the past seven years have made the toothsome dainties by which this store has become famous.

The line of confections displayed this season is the largest ever shown at any candy store in this city during a holiday season and is made from pure, carefully selected stock. Here may be found every dainty creation known to the candy maker's art, and the prices are such that all can afford to enjoy the luxuries that go to make up the delights of the happiest period of the year.

ALL FOR THE JUDGE.

Hon. R. S. Taylor Has the Support of Fort Wayne Citizens.

A Committee Appointed Last Evening to Boom His Candidacy—Will go to the Capital.

A large number of Fort Wayne republicans met at the Tippecanoe club rooms last evening to discuss the candidacy of Judge Taylor for United States senator and to devise means of giving the judge the working support of his fellow townsmen. The meeting was called to order by R. B. Hanna, who had issued the call. G. E. Barclay was chosen chairman and C. R. Lane and John T. Dougall were selected to act as secretaries. Mr. Barclay said that Fort Wayne citizens should show to the state that they were desirous of having their honored townsman sent to the senate and at this meeting some arrangements to boom his candidacy should be made. A committee on resolutions, composed of two following persons, was appointed: J. B. Harper, W. E. Leonard, R. B. Hanna, W. J. Vesey and D. N. Foster.

While the committee was in consultation C. R. Lane, Mr. Taylor's manager, explained the latest situation as he saw it. He said that Judge Taylor would receive nineteen or twenty votes on the first ballot and one or two of the other candidates would receive as many. But Judge Taylor was the second choice of legislators who would support other candidates because they were from the same district as the candidate. In some instances Mr. Taylor would receive a vote or two from the district of an opposing candidate. Mr. Lane asserted that the fight would finally narrow down to Taylor and Steele. The judge was a statesman while Mr. Steele had nothing to recommend except that Tom Reed had appointed him to the Naval Academy and was a member of the house of representatives. He believed Mr. Beveridge's election would be an impossibility because it would interfere with the renomination of Senator Fairbanks. Mr. Posey was not a bona fide candidate for senator, but rather aspired to be the next governor. Mr. Hanly was supported by legislators from his district because they were desirous of keeping out of the way of Congressman Dempsacker. He believed Judge Taylor would get the best show better with Senator Fairbanks than any of the other candidates.

The committee on resolutions made the following report:

GREETING.

"The republicans of Allen county desire to proclaim to the republicans of Indiana their earnest endorsement of the Hon. Robert S. Taylor, late for nomination by the caucus of republican members for United States senator and election at the hands of the legislature soon to meet at the state capital.

"We voice the sentiment in so doing and only of the people of this, the Twelfth congressional district, but also, we are led to believe, of a large per cent. of the republicans of the state.

"We present a man supremely well qualified by native ability, culture and knowledge of affairs for the honorable and useful discharge of the important duties of a senator, both toward his country and his party.

"We present a man who, while an earnest student of social and industrial problems and an able and sincere advocate of measures to promote the welfare of the people, is yet practical in his ideas and correct and forceful in his judgment.

"We present a man who has the solid talent and ripened intellectual powers, which would reflect credit upon the state and sustain the high reputation which its distinguished statesmen have given it.

"We present an available man, in the party sense, and one, if elected, would conserve the unity and harmony of his party as a colleague of Senator Fairbanks."

Messrs. John Morris, jr., E. K. Burry, W. J. Vesey, H. L. Hanna, W. P. Bond and C. E. Barclay made suggestions as to the best methods to pursue in pushing Judge Taylor's candidacy. A number of citizens expressed a willingness to spend several days at Indianapolis during the week for the judge and Mr. Barclay was authorized to appoint a big committee to go to the state capital.

During the discussion Judge Taylor visited the club rooms and the meeting ended with a neat speech by him, in which he stated that hard work would end in victory.

HE IS ALIVE.

Report That President Heureaux, of San Domingo, Has Been Assassinated.

WASHINGTON, Dec. 20.—The dispatch from Paris today stating that President Heureaux, of San Domingo, had been assassinated while attending a christening incognito is untrue. United States Minister Powell cables from Port Au Prince that there is no truth in the report.

Rev. William M. Simpson, pastor of the A. M. E. church, has taken a firm stand against the "cake walk," and his flock is advised to refrain from that kind of pastime. Whether or not the pastor will have control of the "cake walk" in his church remains to be seen.

COST OF BIG SEWER.

Estimated That it Will Reach at Least $125,000.

Board of Works Has Determined on the Route.

Will be More Than Two and One-half Miles Long.

Engineer Randall Will Soon Commence Surveying Route and Making Estimates—City Hall Notes.

The board of works at the regular meeting Monday afternoon selected the route for the big South Wayne sewer and instructed Engineer Randall to prepare specifications for its construction. The outlet of the sewer will be in the St. Mary's river at a point eight feet north of the eight-way run of the Pennsylvania railway. Thence east across Swinney park to Gardon street, thence east on Taylor street to Fox avenue, then south on Fox avenue to a point opposite the bridge across Shawnee run on Fairfield avenue, then in a southeasterly direction to the intersection of Hoagland avenue and Killen street, thence south on Hoagland avenue to Johns avenue, thence east on Johns avenue to Piqua avenue.

The sewer will be more than two and one half miles in length and will cost $125,000. This is the estimated cost, but many persons conversant with the building of sewers estimate that the sewer will cost much more than $125,000.

The route selected by the board is the one suggested in The Sentinel when the matter was being discussed some weeks ago. It is believed by the board to be the most feasible and has no objection is manifested from from property owners along any other route.

The board approved the bonds of Henry Franke, licensed gas fitter and plumber, and H. F. Noll as gas fitter and sewer builder. The city clerk submitted the communications of the council, relating to the Harrison street tunnel, and the Solid Alloy obstruction matter. Both communications were filed for future action.

MUNICIPAL NOTES.

The council committee of the whole met in the city clerk's office last evening and discussed the contract for a new pumping engine for the waterworks department. Councilman O'Ryan, Schetd, Hayes, Ehrman and McMahon were absent.

The matter was only informally discussed and no finality reached. The committee on contracts and franchises should meet Wednesday evening and prepare a report which will be submitted to the committee of the whole. The big committee will then wind both the pumping stations and thereafter prepare a report for submission to the council.

Henry M. Williams was present and suggested that an expert should be employed to make an investigation and report to the council.

The committee on rules, regulations and ordinances will meet tonight.

The committee on finance will meet Wednesday evening.

The water works trustees, Clark McDonald and Engineer Baxter will meet with the council committee on contracts and franchises tomorrow evening.

LIGHTS WENT OUT.

Southside Incandescent Circuit Suddenly Cut Off.

Eight Hundred and Sixty Lamps Were Extinguished.

Caused Panfemonium at Organ Factory and Elsewhere.

Old and Neglected Kerosene Lamps Resurrected and Candles in Some Instances Furnished Light.

Quick as a flash of lightning eight hundred and sixty incandescent lamps were extinguished on the south side last evening at 5:45, and every body on the south side circuit were plunged in darkness.

This unlooked for caprice on the part of electricity was due to the burning out of the main fuse at the south depot crossing, this fuse being the important one that governs all of the south lines. When the accident happened the repair force was at the generating station on Spy Run avenue and it took fourteen minutes to replace the fuse and restore lights. In the meantime there was great commotion all over the south side, especially in the stores that were not provided with any other illuminant.

In many houses where the old, reliable kerosene lamp had long since been consigned to the garret and superseded by the modern light the confusion arising over the accident had its funny side. The old lamps were handed out from its dusty retreat and made to do service again, in many instances minus a lamp chimney, and where lamps were not obtainable other candles or the gas fires served to drive away the gloom. At the works of the Packard Organ and Piano works, where incandescent lighting is depended upon entirely there was pandemonium for a time, the employes making merry over the state of affairs by howling, singing and passing away the time in other ways.

MR. PLATT and others in the senate seem bent upon buttoning up the esteemed Mr. Vest.

THE republican machine in New York is becoming much disconcerted by some recent evidences that Colonel Roosevelt, governor-elect, is going to run his administration in the interest of the people of the commonwealth. Platt took up the rough rider because he knew he could win with him and no one else and he trusted to chance to be able to control him. His trust has evidently been badly misplaced. Roosevelt manifests an inclination to continue being a rough rider.

THE Logansport Pharos, in an editorial for reform in township management, tells of a Cass county trustee who drove to town and bought 15 cents' worth of chalk for the schools and charged a full day for his work, and another who went to Logansport and bought a quarter's worth of books for some indigent children, and charged a full day—$2.

A STRIKING feature of the senatorial contest in this state, says the South Bend Times, is that the man who is on all sides acknowledged to be the very ablest and best equipped—Judge Robert S. Taylor, of Fort Wayne—will have the smallest number of votes at the beginning of the caucus balloting, and that the one having the least claim to such recognition among the aspirants (J. Frank Hanley) will have the largest vote on the first ballot. This is one of the anomalies of Indiana politics.

THE meeting held last night in the interest of Judge Taylor's senatorial candidacy was, eminently proper. Of course Judge Taylor must rely upon his republican friends for that activity necessary to success. Democratic influence is not likley to weigh heavy in a republican legislative caucus. But Judge Taylor and his friends no less than his opponents should understand that, since the election of a republican to succeed Senator Turple is inevitable, the democrats of Fort Wayne and Allen county are scarcely less interested in the candidacy of their distinguished fellow citizen than are the republicans themselves. Such a strong nonpartisan moral support ought to impress the republican members of the legislature. We believe it will. Meanwhile, the republican friends of the judge will see to it, if they are wise, that the recently inaugurated movement grows and makes itself felt.

Will Leave Springfield and Manage the Syracuse Team.

A Syracuse special says: Lew Whistler, of St. Louis, will play first base for and manage the Stars next year. He has a creditable record in major and minor league circles, and is one of the most popular players in the profession. His clever management of the Springfield club of the Interstate league in 1898 attracted the attention of Manager Kuntzsch, who has been in negotiation with Whistler for over a month. He will, it is understood, bring with him several star players of the Interstate league, who will be drafted after January 1. Further than this, there are no local base ball developments. Whistler was not under reservation to the Springfield club and his engagement does not involve an outlay of money.

ALMOST FATAL.

John C. Polhamus Squeezed Between Engine and Door Jam.

Andrew Matson's Big Sunshed by an Engine—He Has a Narrow Escape—Local Gossip.

John C. Polhamus, a fireman on one of the fast freight runs on the Pittsburg road, was brought home on No. 15 this morning, badly injured. Yesterday, as his engine was backing out of the Crestline round house, preparatory to the trip to this city, Mr. Polhamus was caught between the side of the cab window and the arch, and badly squeezed. A gash two inches long was cut in the forehead and the scalp from the base of the skull to the crown of the head was torn loose, making a wound that Dr. Hemen had to take thirteen stitches to close. Notwithstanding these injuries, it is said Mr. Polhamus rested easy after his wounds had been attended to and the surgeon thinks he will come around all right in due time. Mr. Polhamus resides at 71 West Butler street, where he is now lying. He is a brother of A. H. Polhamus, the road foreman.

Increasing the Power of the Class R.

As rapidly as the class R freight engines can be spared from the service they are going into the Pittsburg shops and receiving changes that increase their hauling power without a corresponding increase in the steam pressure. This is accomplished by replacing the cylinders with ones that have a longer stroke making them 20x28 inches. The water tanks are also being enlarged so they will hold 5,100 gallons, increasing their capacity fully one-third, and making longer runs between water stations possible. The capacity of the coal bins are also being increased proportionately. Two of these engines have already been served in this manner, the second one, No. 260, now being out on her trial trip with Engineer George Miller at the throttle. The original instructions were to fit up seven of the class in this manner, but the experiment is so successful that no doubt all of the engines of this pattern owned by the company will be similarly treated.

The Rumors Said to be Groundless.

Concerning a matter now of much interest to the citizens of Fort Wayne, the Columbus, Ohio, Dispatch says: "Those rushes for Pennsylvania changes the first of the year may as well be broken, for it comes from authority high enough to receive consideration that there is not the least possibilities now for such radical changes as have been intimated. All along there has been little credence given the stories going the rounds, but during the week there were several moves which looked suspicious in connection with the stories of changes and in event of their materializing a guess was made as to what might be expected if changes were in the wind. It was stated today that there is no likelihood of J. F. Miller, general superintendent of the southern system, retiring, nor has there ever been such a thing planned. Mr. Miller is in the best of health, enjoys to the fullest the confidence and esteem of President Thomson and other high officials, and has years of usefulness ahead of him. The other changes are said to remain. Officials and employes in and about Columbus are satisfied with conditions as they are, and would very much regret to learn positively that Mr. Miller was to retire. Accordingly, all can rest assured that no changes are in sight, for the information on which this statement is made comes as near official as anyone could wish."

Train and Wagon Collide.

Pennsylvania passenger train, No. 39, Engineer Kirby Jackson at the throttle, smashed a one horse wagon into kindling wood on a crossing at Colehour last evening. Andrew Matson, the driver, was tossed about twenty feet, but escaped with the loss of an ear. The horse was unharmed. Matson was taken to South Chicago, where his wound was attended to in a hospital.

Personal and General.

H. Beneke, a car builder, is sick and off duty.

H. Dickman has recovered his health and yesterday resumed work at the coal shops.

P. Martin mashed his left thumb yesterday with a hammer. He is a tank repairer at the coal shops.

Barney Asses, of the east car shops, slipped yesterday and bruised his left knee so badly he had to quit work.

The Panhandle is handling in its yards in Dennison an average of 1,000 loaded cars per day, exceeding all previous records.

Car Builders H. Tonges and E. F. Sigler, who were injured at the coast shops a week ago, were able to resume work yesterday.

A. J. Serdelet went to Chicago yesterday to remain until after Christmas, visiting friends. Mr. Serdelet is a car builder.

There were only two shipments of dynamite from the electric works today, one to Georgetown, Ky., and the other to Lewiston, Ill.

A. Bennett, the car builder, whose misfortune was noted in yesterday's SENTINEL, is in a worse condition than as first thought. The bruise on his shoulder is the greatest injury, rendering his right arm useless for awhile at least.

Nickel Plate engine 17 has gone to the shops for repairs.

Foreman John Kreisinger, of the Pittsburg planing mills, is sick and off duty.

Brakeman Brooks and J. Reardon, of the Nickel Plate, are taking a few days rest.

J. H. Juno, travelling passenger agent of the Union Pacific, was in the city this morning.

The Bass Foundry and Machine company shipped a car load of machinery to Granby, Canada, this morning.

G. Wefel, who had been on the sick list, this morning resumed his duties in the flue department at the Pittsburg shops.

Fred Rathbrock, who had been engaged in setting up dynamo machinery in Illinois, has returned to the city to spend Christmas.

Conductors Allen and Dunlow and Brakeman Kepler have resumed work on the Nickel Plate, after a few days' absence for various reasons.

The Missouri, Kansas and Texas has reduced passenger rates through the sparsely settled portion of the southwest from five to three cents per mile.

Switchmen C. D. Thompson and C. C. Wyburn, of the Pittsburg, are off duty, the former on account of sickness and the latter on account of business.

A. C. Davis has gone to Pittsburg to inspect the steel bolsters that are being made by the Schoen Press Steel company for the Pennsylvania company.

The Santa Fe is extending its block system westward, and will soon have its trains on 1,000 miles of the road moving under a perfect block signal system.

Genl. F. W. Alderman, late of the Twenty-eighth Indiana battery, has taken a position as fireman with the Nickel Plate, making his first trip over the line yesterday.

The Grand Trunk telegraph operators who are threatening to strike are preparing to call into force the Canadian alien labor law, which will keep out American operators.

Rumor has it that James Barker, general passenger agent of the Missouri, Kansas and Texas, who is on an eastern trip, will resign to accept a similar position on another road.

Thomas Howard, foreman of shop hands, Owen Cummings and Dennis Cleary this morning returned to their work in the Pittsburg shops after being on the sick list a few days.

E. A. Knight, who is engaged in inspecting the cars that the Terre Haute works are building for the Pennsylvania company, has arrived home to spend the holidays with his folks.

Ed Fisher had the second and third fingers of his left hand cut this morning by the gearings of the machine he was operating at the electric works. The wounds are not serious.

Engineer Ogier and Fireman Litchfield and McFarran, of the Nickel Plate, are sick. Engineers Bolger and Stevens and Fireman Sonler and Hood are off duty to look after private affairs.

Mr. Gardner, master of transportation of the Findlay, Fort Wayne and Western, was in the city yesterday looking after a couple of coaches the Pennsylvania company is repainting for the Findlay.

Fred Muhlenbrunk, of the Pittsburg blacksmith shop, had a piece of steel removed from the muscles of the back. The metal had been there for several years, but never caused much annoyance until lately.

Secretary F. W. Arnold, of the Brotherhood of Locomotive Firemen, is in the east looking after the affairs of the order. He says the brotherhood is in better shape than ever, viewed in a financial, numerical or moral sense.

Nickel Plate Brakeman Little has gone to Zanesville, Ohio, to visit friends a few days. J. C. Miller, also a brakeman on the same road, is taking a lay off for the purpose of helping to move his household effects to new quarters.

Peter Baldy, Pennsylvania train dispatcher, accompanied by a box of cigars, called at the Pennsylvania offices this morning long enough to leave the smokers and to say that "It's a boy and he weighs eleven pounds." Then he hastened back home.

On the Chicago and Erie road it is now necessary for an engineer or fireman to accompany his request for a lay off with a statement from a reputable physician that the applicant is physically unable to work before permission to absent himself from duty will be granted.

There is a scarcity of common laborers in the northwest at present. The contractors who will build the Snake River Valley line of the Oregon Railway and Navigation company have been canvassing the field and announce that they will have to come east for laborers. They will employ 2,000 men.
